

DojoTrack

Martial arts club management, simplified

Product strategy + MVP + wireframes

Name proposals

Name	Domain	Positioning	Verdict
DojoTrack	dojotrack.app	Clear purpose. 'Track your dojo'. Works globally.	Recommended
TatamApp	tatam.app	The tatami is where it happens. Universal martial arts.	Strong alt
BeltUp	beltup.app	Progression-focused. 'Level up your belt'. Fun, motivating.	Strong alt
Sensei	sensei.app	Instructor-focused. Respectful. Could be too Japanese-specific.	Elegant
Kumite	kumite.app	Sparring. Action-oriented. Karate/MMA crowd.	Niche
GradeUp	gradeup.app	Belt grading focus. Clear value prop.	Direct
MatTime	mattime.app	Time on the mat = training. Simple, inclusive.	Catchy
FightLog	fightlog.app	Training diary feel. Competition tracking.	Too combat
OssApp	oss.app	'Oss!' — universal BJJ/karate greeting. Insider signal.	Cult appeal
RollTrack	rolltrack.app	BJJ-specific (rolling = sparring). Niche but loyal.	Too narrow

V2MOM

Vision: Become the default management tool for independent martial arts clubs worldwide, replacing WhatsApp + Excel + paper with a mobile-first platform that understands belts, katas, and sparring.

Values: (1) Belt progression is sacred — track it properly. (2) Instructors teach, not admin. (3) Students see their journey. (4) Families manage together. (5) Works on the tatami — mobile-first, one-hand operation.

Market analysis

Segment	Estimate	Notes
Spain	~5,000 clubs	Judo, Karate, BJJ, Taekwondo, MMA. Federated + independent.
Europe	~80,000 clubs	UK, France, Germany, Italy lead. BJJ fastest growing.
Global	~500,000 clubs	US ~30K, Brazil ~20K, Japan ~10K. Fragmented, mostly independent.
TAM (global)	EUR 150M ARR	500K clubs x EUR 25/mo avg
SAM (Europe)	EUR 24M ARR	80K clubs x EUR 25/mo avg
SOM (Year 1)	EUR 30K ARR	100 clubs x EUR 25/mo avg. Spain + UK first.

Competitive landscape

Competitor	Price	Belts?	Weakness
Kicksite	\$100-300/mo	Yes	Dated UI, US-only, expensive
Zen Planner	\$117-247/mo	Bolted on	Generic fitness, not martial arts native
MA on Rails	\$49-99/mo	Yes	Tiny team, basic UI, limited mobile
Mindbody	\$139-699/mo	No	Zero martial arts awareness
Glofox	\$110-280/mo	No	Gym-focused, no rank system
WhatsApp+Excel	Free	No	No structure, no belts, no payments

Differentiator: Only modern, mobile-first platform with native belt progression for multiple martial arts, at EUR 19/mo (vs EUR 100+ for competitors).

Personas

Persona	Role	Pain	How we win
Sensei Rafa (45)	Owner/head instructor. Runs a BJJ academy with 80 students.	Spends 10h/week on admin. Tracks belts in a notebook. Chases payments manually.	Belt progression dashboard. Stripe recurring. Student self-service.
Maria (35)	Parent of 2 kids (8, 11) in Karate.	Doesn't know what belt her kids are working towards. Pays by bank transfer.	Family account. Progress visibility. Online payment.
Alex (22)	BJJ white belt, trains 4x/week.	Wants to know what he needs for blue belt. Can't remember which classes he attended.	Progress tracker. Attendance streak. Belt requirements checklist.
Coach Lena (30)	Assistant instructor, teaches kids' classes.	No visibility into student progress. Uses paper for attendance.	Class management tablet view. Quick check-in. Student notes.

Pricing

Tier	Price	Students	Features
Free	EUR 0/mo	<= 20	1 instructor, 1 discipline. Schedule, attendance, basic belt tracking.
Club	EUR 19/mo	<= 100	Unlimited instructors. Multi-discipline. Stripe payments. Family accounts. Belt exams. 5 GB storage.
Club Pro	EUR 39/mo	<= 300	Competition tracking. Smart sparring pairing. Analytics. Instructor pay tracking. Custom branding. 20 GB.
Federation	EUR 99/mo	Multi-club	Multi-location. Official rank registry. Inter-club competitions. White-label. API.

EUR 19/mo for a club of 80 students = EUR 0.24/student. The alternative (Kicksite) is EUR 100+/mo.

Month	Free	Club	Pro	Fed	MRR
3	20	0	0	0	EUR 0
6	50	5	0	0	EUR 95
9	80	15	3	0	EUR 402
12	120	30	8	1	EUR 981
18	200	60	20	3	EUR 2,217
24	350	100	40	8	EUR 4,252

Phased roadmap

Phase 0: Validation (weeks 1-2)

Task	Deliverable
Talk to 10 club owners/instructors	Interview notes, 5+ 'I would use this'
Train at 3 different clubs, observe their admin	Pain points documented
Download Kicksite + MA on Rails trial	Competitive analysis
Map belt systems: BJJ, Karate, Judo, Taekwondo, MMA	Data model for rank progression
Secure domain (dojotrack.app / tatam.app)	Domain registered
Landing page with waitlist	URL live, collecting emails

Phase 1: MVP (weeks 3-8)

Core: instructor manages classes, marks attendance, tracks belt progression. Students see their journey.

Sprint 1-2: Foundation

Feature	Details
Auth (phone + Google)	Instructor registers. Students join via invitation link (WhatsApp).
Club registration	Club name, address, disciplines offered, belt system selection.
Student roster	Add students: name, age, contact, medical notes, emergency contact.
Family accounts	Parent links multiple children. Single login, switch between kids.
Belt system config	Preset: BJJ (white-black), Karate (10 kyu + dan), Judo, TKD. Custom option.

Sprint 3-4: Classes + attendance

Feature	Details
Class schedule	Weekly recurring schedule. Multiple classes/day. Filter by discipline, level, instructor.
Student booking	Students book classes from their phone. Waitlist if class is full.
Check-in	QR code scan at the door OR instructor marks from tablet. Timestamp recorded.
Attendance dashboard	Per-student: total classes, streak, attendance by month. Per-class: avg fill rate.
Class cancellation	Instructor cancels > notification to all booked students (WhatsApp + in-app).

Sprint 5-6: Belt progression

Feature	Details
Belt requirements	Per rank: min months at current belt, min classes attended, techniques to master.
Progress tracker	Student sees: 'Blue belt: 7/10 requirements met'. Visual progress bar.
Technique checklist	Instructor marks techniques as demonstrated/passed per student.
Exam scheduling	Create grading event. Notify eligible students. Exam fee (optional).
Exam results + belt award	Record pass/fail. Update student rank. Generate certificate PDF.
Belt timeline	Visual history: white (Jan 2024) > blue (Mar 2025) > purple (target: Sep 2026).

MVP milestone: 10 clubs. Instructor manages classes + belt progression. Students see their journey.

Phase 2: Payments + competition (weeks 9-14)

Feature	Sprint	Details
Stripe subscriptions	7-8	Monthly billing. Tiers by frequency (2x/week, unlimited). Auto-retry failed payments.
Family discounts	7-8	2nd child -20%, 3rd -50%. Auto-applied at checkout.
Exam fees	7-8	One-time charge per grading. Paid in-app before exam date.
Payment dashboard	7-8	Who paid, who owes, total revenue this month. Export CSV for accountant.
Competition calendar	9-10	Add tournaments. Students register interest. Weight class tracking.
Competition results	9-10	Record medals/placements. Student competition history.
Sparring pairing	11-12	Smart match by weight + belt + age. Round-robin rotation.
Injury tracking	11-12	Flag injuries per student. Pairing respects restrictions.

Phase 3: Growth (weeks 15-24)

Feature	Details
Instructor management	Multi-instructor scheduling. Substitution handling. Per-class pay tracking.
Analytics dashboard	Retention rate, avg attendance, belt progression velocity, revenue per student.
Student app (PWA)	Full self-service: book, view progress, pay, competition history.
Equipment shop	Sell gis, gloves, rashguards. In-app ordering. Optional.
SEO content	Blog: 'BJJ belt requirements', 'how to run a martial arts club'. Lead magnets.
Referral programme	Club invites another club = 3 months free.
Multi-language	English, Spanish, Portuguese, French. Covers 80% of martial arts market.

| | ... ||
| +-----+
|
| [ Export CSV for accountant ]
|
+---[Home]-[Students]-[Belt]-[Pay]---+

```

7. Sparring pairing (future)

Smart matching for rolling/sparring sessions.

```

+-----+
| [<] Sparring rounds |
| BJJ Advanced | 19:30 |
+-----+
|
| Round 1 (5 min)
| +-----+
| | Alex (blue, 78kg) ||
| | vs ||
| | Diego (purple, 82kg) ||
| +-----+
| | Maria (blue, 62kg) ||
| | vs ||
| | Sara (blue, 58kg) ||
| +-----+
| | Pablo (white, 70kg) ||
| | vs ||
| | Marco (white, 73kg) ||
| +-----+
|
| (!) Sofia sitting out:
| knee injury (no leg locks)
|
| [Regenerate pairs] [Next round]
|
| Round-robin: everyone faces
| a different partner each round.
|
+-----+

```

Go / no-go checklist

Criterion	Status
5+ club owners say they would use a free tool	
2+ club owners say they would pay EUR 19/month	
Belt systems mapped for BJJ, Karate, Judo, TKD (data model validated)	
Competitive gap confirmed (tried Kicksite/MA on Rails, found them painful)	
Domain secured (dojotrack.app or tatam.app)	
1 pilot club committed to testing the MVP	

Tech stack

Layer	Technology	Rationale
Frontend	Next.js 16 (App Router)	Same as mensajeras, vecinos, oscar.portal
Database	Supabase (PostgreSQL)	Auth, RLS, Realtime, Storage
Auth	Supabase Auth (phone + Google)	Instructor + student auth
Payments	Stripe	Subscriptions, exam fees, family discounts
Notifications	WhatsApp Business API + email	Class cancellations, payment reminders
Hosting	Vercel	Auto-deploy, preview URLs
ORM	Prisma	Type-safe DB queries
UI	Tailwind + shadcn/ui	Consistent with other projects

Timeline summary

Phase	Weeks	Milestone
0: Validation	1-2	10 interviews, competitive analysis, domain, landing page
1: MVP	3-8	Classes, attendance, belt progression. 10 clubs.
2: Payments + competition	9-14	Stripe, family discounts, competition tracking, sparring. 50 clubs.
3: Growth	15-24	Multi-instructor, analytics, SEO, referrals. 200 clubs.
4: Expansion	25+	Federation tier, multi-language, AI training assistant.

Product strategy generated 3 June 2026. Following the Lexit/Mensajeras/Vecinos playbook.
